- Motion detection, dusk-til-dawn, always on functions
- Provides a soft amber glow
- 8 Metre, 110° operating range

The Masterplug Bond

This product has been designed to comply with the latest British Standards and Electrical Equipment Safety Regulations. Manufactured under an ISO 9001:2000 quality system.

Safety Warning

Please read carefully and use in accordance with our safety and operating instructions below.

Operating Instructions

Plug your Night Light into the main socket and switch on.

Motion Mode

When the Night Light senses movement it will turn on automatically. When the movement stops, the light will remain on for 2 minutes before turning off. Motion Mode works in conjunction with the photo sensor and will only work from "Dusk-til-Dawn". Motion Detection coverage is up to 8 metre and 110°.

Dusk-til-Dawn (photo) Mode

The Night Light features a "Dusk-til-Dawn" photo sensor which detects light levels and switches the unit on at dusk and off at dawn.

On Mode

The Night Light stays on permanently, regardless of surrounding light levels or motion.
