### PRODUCT INFORMATION

Part Number	TAU2
Product Dimensions	Height 57mm x Width 112.5mm x Depth 63mm
Sockets	2

### TECHNICAL SPECIFICATIONS

Standard(s)	This product is certified to applicable British safety standards BS 5733
Maximum Load (Wattage)	7.5A: 1800 Watts, 240 Volts
IF IN DOUBT CONSULT A QUALIFIED ELECTRICIAN	

### COUNTRIES OF USE

Most European wall sockets provide an earth connection through either a protruding vertical pin or visible side contacts. The Masterplug travel adaptor has been designed to automatically provide an earth connection for your 3-pin plug for these wall sockets, however in some circumstances no earth connection is provided by the wall socket, and sockets only have two apertures to accept the adaptor pins. Compatible with all European countries\*, also, Brazil, Chile, Morocco, Tunisia, Turkey & other parts of the world operating on European systems\*

**Note:\*** Older or more than one electrical system may still be in use in some countries.

### SAFETY WARNING

- ✓ DO Ensure that the appliance is suitable for the local power supply. The majority of European countries have a 220-250 Volt supply.
- ✓ DO Check whether your appliance is suitable for dual voltage, most travel appliances are designed to run on dual voltages. This adaptor does not change voltages.
- ✓ DO Insert the adaptor into the wall socket and use the appliance in the normal way.
- ✓ DO Select the correct adaptor combination for the required country.
- ✗ DON'T Use if the local socket fitting does not allow insertion of the adaptor. This may be the case in some countries.
- ✗ DON'T Exceed maximum allowable load 7.5 Amps, 240 Volts a.c., 1800 Watts.
- ✗ DON'T Use in damp or wet conditions.
